

PlusDlite case assembly manual

Thank you for ordering a PlusDlite case!

Please follow these steps for easy assembly of your PlusDlite into the professional custom printed case.

The kit consists of the two case parts, two button caps with self-adhesive tape, and four screws:

1. Remove the yellow paper from the two blue button caps and attach them onto the tactile buttons:

2. Remove the screws from the bottom and remove the bottom plate:

3. Place the PlusDlite into the case:

4. Check if the two button caps are properly aligned:

5. Attach the bottom plate with the screws:

Congratulations with your complete PlusDlite!
